download free Wireless WEP Key Password Spy 2012

برنامج Wireless WEP Key Password Spy لجلب باسورد الشبكات اللاسلكية الويرلس وفك تشفيرها

والاتصال فورا بالشبكة والاستماع بالنت كما انه يقوى الاشاره من خلال الارسال والاستقبال منقطع النظير

This software will instantly recover all WEP keys and wireless network passwords that have been stored on your

computer. To get started* click "Find Wireless WEP Keys". It will then display the adapter GUID and all recovered

information associated with it including the wireless network name (SSID)* the encryption type (WEP 40* WEP 104*

or WPA-PSK)* and the WEP key associated with each network. At the bottom of the screen you can see the name of

your current Ethernet adapter* the total Kb sent and received during the current Windows session* and the current

down/up throughput
